School Profile

School Context

Established in 1919, our school is proud to hold the distinction of being the last schoolhouse in Quebec, nestled in the picturesque town of St-Télesphore near the Ontario border. With a rich history and a commitment to nurturing young minds, we offer a unique and supportive environment where students thrive academically, socially, and emotionally.

Our school is home to 27 students, ranging from kindergarten through grade 6, taught in two multilevel classes. This small and close-knit setting fosters a spirit of sharing and collaboration, where students of different ages learn from one another and grow together.

We offer a bilingual program. This approach not only strengthens students' linguistic skills but also enriches their cultural awareness and understanding.

Guided by three dedicated teachers and supported by one integration aide, our team works closely with students to ensure individualized attention and a holistic approach to learning. In addition to our teaching and support staff, a committed group of professionals, including a school psychologist, a speech-language pathologist, a consultant in inclusive education work collaboratively to address the diverse needs of our student body. The administrative team, the principal, administrative assistant and SEED technician all based at Forest Hill Junior, are also supporting the Soulanges team.

Our strong community spirit is at the heart of everything we do. Families, staff, and students come together to create a warm and inclusive environment, making our school a special place to learn and grow.

Soulanges is where history meets innovation, and where every child is valued and supported on their educational journey.

Programs of Study and Approaches to Learning

At Soulanges, we follow the Bilingual program model with students receiving their education equally in English and in French from kindergarten to grade 6. In addition to the core subjects, students participate in physical education and drama.

With its unique setting, Soulanges is divided into two multileveled classes. Teachers use a differentiated learning approach where students can learn at their own rhythm. Collaboration, communication and critical thinking are just some of the soft skills that are developed in such an environment.
